

tImNEXUS is a professional services company that provides bespoke web-based software solutions that help our clients improve productivity and service delivery.

A listed supplier on MOD FATS/3 (Framework Agreement for Technical Support) and an ISO 9001:2000 company, tImNEXUS works closely with our clients to devise a solution that really works for them, taking time to understand the unique challenges they face on a day-to-day basis, and developing a system that embraces and enhances their culture and best practice, yet improves access to information and knowledge share.

Our internal team consists of dedicated software developers, project managers and business analysts, many of whom are Microsoft and Prince2 certified and possess Masters degrees in a variety of subjects including Information Systems. They thrive on innovative problem solving, excellence, and harnessing new technologies to get the best for our customers.

APPROVE

The Electronic Management of Your Business Cases

Would you like to update your paper-based process for managing business cases to something faster and more efficient? To something that links with your budgets and deliverables so you can track your spend in real time and make better investment decisions? A solution that makes stakeholder engagement easier, encouraging better information and decision-making?

If so, Approve is for you.

Approve is a bespoke solution by tImNEXUS that enables the complete electronic management of business cases and investment appraisals, from initial creation through to final approval.

Approve will...

- Automate the entire business case approval process, taking away all paperwork
- Eradicate unnecessary delay to the approval process. Stakeholders can access the system remotely from anywhere in the world and the use of digital signatures enables timely progression of business cases
- Provide you with a complete audit trail for every business case so you can track the evidence, notes and stakeholder communications that accompany each investment proposal
- Link your business case financials with budgets and deliverables, so you can track who is spending and on what
- Encourage individuals and teams to make better investment decisions

Clients in the public sector are already using it. Read what they have to say...

Phil White, Typhoon Deputy Financial Controller said: "Our old business case system was paper based and therefore heavily reliant on colleagues being at their desks, and if they weren't it led to error and delay. We asked tImNEXUS if they could build us an electronic solution to meet our requirements, which has evolved over time. The team loves Approve because it is easy to use and allows documents to be attached. Plus, cases are progressing faster because stakeholders can log in at anytime from anywhere and do what they need to. We have a close relationship with tImNEXUS, which helped us quickly achieve benefits from the new solution."
